BLACK

SURFMIST

MONUMENT

PRIMROSE

WOODLAND GREY

WHITE

ADJUSTS FOR SEASONAL HOUSE MOVEMENTS

Movements can produce unsightly gaps between your door and frame or make your door hard to open.

Competitor doors will need the strike plates reset, door jambs shaved or worst yet - a replacement door!

With Adjusta-Door, a quick Allen key adjustment is all that is needed to reset the fit.

Security tested to exceed Australian Standards for total peace of mind.

Adjusta-Door has been put through a rigorous testing process to simulate extreme real life usage and attempted forced entry on the mesh, door, locks and hinges.

Dynamic Impact Test

AS 5039-2008 Clause 7.2

Knife Shear Test

AS 5039-2008 Clause 7.7

Jemmy Test

AS 5039-2008 Clause 7.3
