Deliver smooth, seamless guest experiences and stand apart in a highly competitive market with SALTO smart-access cutting-edge technology combining easy-access, digital key, and streamlined operations for any modern Holiday Park.

THE FUTURE-PROOF SMART ACCESS SOLUTION

Whether it's coastal, countryside or woodland camping, a Lodge Park in the countryside, or glamping in bungalows for family holidays, customers demand smooth, safe, and flawless experiences.

Adventure and nature lovers don't want to be bogged down with having to check in or check out at a front desk. They expect a seamless, welcoming experience with speedy arrivals and departures. SALTO access control keyless entry solutions deliver just that!

SALTO smart access control gives lodge holiday park owners and managers the power to let guests arrive and depart on their own schedule, without queues or long distance walks to a front desk. Property managers can issue multiple credentials, issue group keys, cancel keys, control re-rooming remotely - all across multiple locations and from anywhere with Internet access.

Even in stunning, natual surroundings, security is still a must. SALTO's control, efficiency, and flexibility offers better operational management and on-site security. SALTO lets you automate daily functions and manage multiple events in real-time from one central point: you can update guest, staff, and visitor credentials and manage loan items (like towels, table tennis bats), gifts, special requests and more anytime, anywhere.

About SALTO Hospitality:

SALTO Systems has become a global leader in delivering access control for hospitality. By developing and delivering the most advanced technology the industry has ever known, SALTO empowered property owners and managers worldwide with new ways to secure guests, manage staff, and protect assets.

For nearly 20 years SALTO has been synonymous with innovative solutions, including stand-alone, cloud-based, and mobile applications, that set new standards in security, manageability, flexibility, and design that bring real-world benefits to virtually any door and application type.

Enhance your guest experience with SALTO, the global leader in hospitality access control. Our wire-free, smart keyless security gives you ultimate control and blends seamlessly with your lodge holiday parks, and more.

SMART-ACCESS CONVENIENCE FOR A SEAMLESS GUEST EXPERIENCE

SALTO's RFID wristbands give you the power to see how guests actually use your facilities. Use the information gathered via these credentials to improve traffic patterns, identify potential efficiencies, and develop smarter security protocols.

SALTO's virtual network and data-on-card technology links easily with existing CCTV, fire, and other technology. It helps create a comprehensive security solution and supports pre-set crisis level responses.

KEY BENEFITS

Enhance your guest experience. Manage and control your Holiday Park environment better. Complement your holiday lodges and holiday homes with a SALTO wire-free, seamless, and super-smart electronic locking system.

Provide the modern, easy access option guests increasingly expect with digital keys or key cards giving convenient, instant, and safe access.

Smart, keyless, and digital access for guests and staff. Enhanced guest experiences with simplified check-in/ check-out.

Unique, simple to install designs with fully-customizable options that complement the style of your property.

Improved security, with greater automation and process optimization from the guest room to the back-of-house, saving countless staff hours per week.

Integrated with in-room, check-in, PMS, guest apps, and complete building management systems.

FEATURES

Guest Experience

Provide a seamless, keyless experience with mobile technology and expertise in applying wireless electronic locking solutions in the most secure way.

Streamlined Operations

Simplify and automate operations from back-of-house to front desk with SALTO security and smart access systems, seamlessly integrated with your existing hospitality management tools.

Design

Enhance your property's brand and visual style with the sleek SALTO design aesthetic, built with quality materials and finished to the highest standards. Match that with hardware built with the highest quality materials and craftsmanship and you have an unmatched product that makes a bold statement.

Security & Safety

Improve safety for guests, visitors, staff, and property meeting hospitality's unique security challenges. SALTO solutions combine robust 24/7 security with seamless, convenient, and safe access.

UPGRADE YOUR REVENUE.

Campsites, Lodge Parks, and Bungalows are moving away from their traditional mass market practices to accommodate the expectations of new, tech-savvy travelers.

Major quality improvements include upgrading, expanding, and adding high-end amenities and services. Technology allows the guest to hire facilities on-the-go, with access quickly and seamlessly granted digitally via SALTO. Our solutions integrate seamlessly with other management systems, technology partners, and vendors.

Learn more about your business with intelligence gathered from SALTO solutions: when your busiest times are and the best time for maintenance; deliver complimentary gifts via loyalty programs; and so much more.

ENSURING ROBUST AND FUTURE-PROOF SOLUTIONS.

As access control solutions for the luxury hotel industry evolve, SALTO continues to lead the way as the most innovative and technologically-advanced provider.

We create pioneering systems that ensure maximum security, reliability, efficiency, and convenience, while adhering to the highest design standards that provide contemporary visual appeal. Families will enjoy enhanced experiences and you gain lasting value from your investment. SALTO helps you meet families' rising expectations and differentiate your guest experience.

Designed with built-in, future-proofed durability, scalability, and flexibility, our solutions easily integrate with other hospitality industry systems and vendors, including leading property management systems (PMS) and IoT solutions.

ENHANCING OPERATIONS AND SECURITY.

SALTO brings efficiency and flexibility and offers better operational management and on-site security.

Manage access for one or multiple lodges - no matter how close or far apart they are - from anywhere. Our solutions are also available in the cloud, and accessible from any device. Maintenance and cleaning staff can work faster, free from the hassle of collecting, carrying, and returning keys. You can modify any access calendar on-the-go.

Our RFID wristbands let you see how guests actually use your facilities to help you improve traffic patterns, identify potential efficiencies, and develop smarter security protocols.

CLOUD-BASED SMART CHECK-IN & KEYLESS ACCESS FOR LODGES & HOLIDAY PARKS

Streamline your operations and automatize your lodge park.

For the seasoned traveler, a smooth check-in and check-out goes a long way. Swapping your keys for a cloud-based access control solution just might be a better investment than you think.

Provide online self-guest check-in and check-out technology for the hotel industry, unlocking guest experience value through customer self-service with one easy-to-use cardless system for automated self-service hotels of all types and sizes.

NOT JUST FEATURES: SOLUTIONS

- **KEYLESS:** Smart, keyless, and digital access for guests and staff. Enhanced guest experiences with simplified check-in/check-out.
- **DESIGN:** Unique, simple to install designs with fully-customizable options that complement the style of your property.
- **SECURITY:** Improved security, with greater automation and process optimization from the guest room to the back-of-house, saving countless staff hours per week.
- **INTEGRATE EASILY:** Cloud-connected service and on-premise networked platform, stay ahead of market trends, and connect to your preffered PMS or Hospitality solutions.

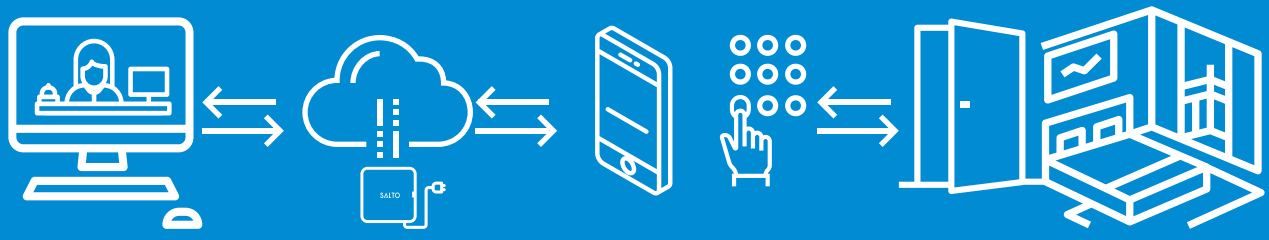
Contactless, mobile, and PIN code entry for guests is easy for you & easy access for your guests.

The SALTO smart access solution for modern lodge and holiday parks allows you to simplify processes such as check-in and check-out and enable an overall digital experience. Before the guests arrive at your hotel, they can choose to go straight to their room and receive their digital key via a smartphone, PIN code from a smartphone, or they can ask for a smart RFID credential at reception for their lodge check-in. It is their choice!

Technologically cutting-edge, SALTO technology means the end of lost key hassles, expense, and waste. Plus, the technology isn't limited to guest houses – it can also be used on main entrance doors, car park barriers, outdoor play parks, sport facilities, swimming pools, etc.

MOBILE CHECK-IN & KEYLESS ENTRY

With SALTO smart keyless access, you can provide guests, suppliers, or visitors access to your hotel property and their room with a PIN code, mobile key, or RFID smart credential.



Check-in:

Your reception is no longer available after 6 p.m.? No problem. SALTO automates check-in and check-out, and automatically sends the new key.

OTA:

New check-in and key sent OTA (Over The Air).

Digital Key & PIN code:

Guests receive their PIN code online (email or SMS) or digital key, anytime and anywhere, at a registered guest check-in.

Guest Lodge Lock:

Guests use their phone or PIN code to open their lodge door, and automatically, the smart lock sends confirmation that the door has been opened to the front desk.

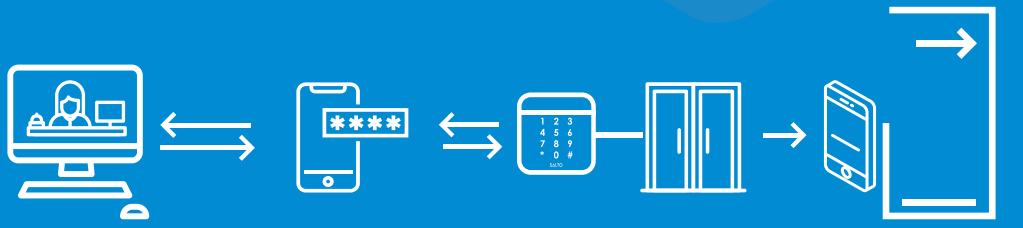
THE FUTURE-PROOF SMART ACCESS SOLUTION

Makes smart access easy, convenient, and secure.

Combining easy-access, digital key, and smart guest rooms, with unified property management systems that protect individuals and assets is a unique challenge for every hospitality business.

SALTO has developed specific add-ons which allow hotel clients to easily control a hotel property and guest management needs with one wireless, easy-to-use smart management system that requires no software installation. SALTO suits all sizes and types of projects, providing an optimal guest experience and providing a wireless smart locking solution with a modern range of features, without sacrificing security or design.

GUEST JOURNEY



Front desk sends the PIN code to a new guest.

Guests receive their Digital Key or PIN code.

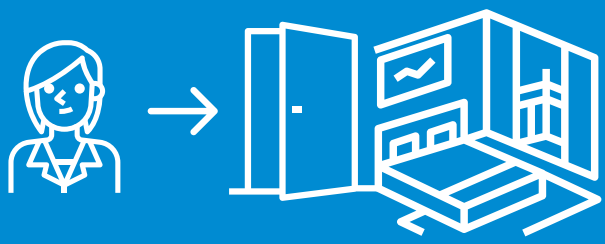
Unique and secure easy to use mobile or PIN Code access at the main entrance to gain keyless access.

Guests may use the Mobile Access, PIN code and / or RFID Smart Cards.

Keyless smart access.

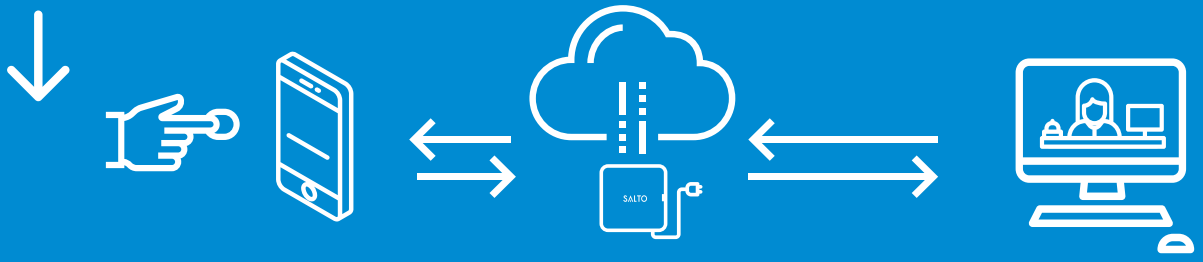
SALTO automatically generates a secure unique entry code and/or digital key that's valid from guest check-in to check-out, unless a credential is lost or stolen in which case the access can be immediately cancelled and reissued.

Any reservation changes or cancellations activate and expire automatically. Once a guest checks out, the access to your property cancels automatically. This saves time and effort and makes it much more convenient for early morning or late night check-in or check-outs, without stress for guests and hosts.



Keyless & flexible management:

Security risks related to lost physical keys can be completely eliminated in a flexible all-in-one, web-based system that integrates all your access control needs, intrusion detection, and building automation into one simple integrated contactless and mobile-enabled solution.



Deliver a digital and connected experience to your guests:

- Guest can open doors with convenient and flexible credentials – smartphone, PIN number, or smart keycard.

Front-office Operations:

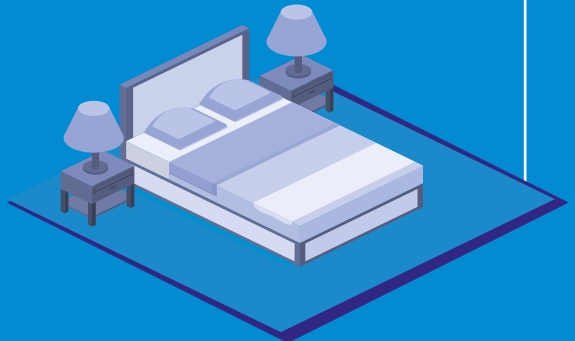
- Extend, modify or revoke permissions quickly and easily as guests' needs change.
- Faster check-in, dynamic staff access control, automatic key renewals, and cancellation.

Guest check-in and check-out any time in any place.

- Select the duration and validity timeframe for each guest stay.
- Track who enters your property and when.
- No need for key exchanges or rekeying a lock when keys are lost.
- Unlock both main entrance and guest room door.

Speeding up check-in and simplifying hotel staff management.

Improve safety for guests, visitors, staff and property, meeting hospitality's unique security challenges. SALTO solutions combine robust 24/7 security with seamless, convenient, and safe access.



Intelligent control.

- Locking modes adjustable by admin rights, rooms and doors status monitoring give full control of who can access what, when, and where and provide real-time audit trails to help managers identify security risks.

Monitoring

- SALTO provides data on real-world guest and staff movement patterns, providing valuable intelligence to drive smarter security protocols and improve overall access flow.

ACCESS MADE EASY AND SECURE

Provide the modern, secure, and keyless access option.

Opening and locking modes adjustable by admin rights, room, and door status monitoring give full control of who can access what, when, and where and provide real-time audit trails to help managers identify security risks. Help staff, users, or visitors come and go more easily. Replace the hassle of physical keys with advanced SALTO smart-technology access options using smartphones (iOS or Android), smart keycards, or PIN codes.

DIGITAL KEY

TAP AND UNLOCK WITH DIGITAL KEY

With SALTO Bluetooth LE locks you can unlock doors with Digital Keys.

It's time to say goodbye to mechanical keys. Now there's a better and easier way to access. All you need to do is activate the Digital Key smartphone app and tap your phone on the reader of the lock. Users can receive Digital Keys anytime and anywhere, making issuing and receiving access rights much easier and more flexible.

SMART CREDENTIAL

YOUR TRUSTWORTHY BACKUP

Tags replace that ring of keys and grant designated access to visitors, employees, or even delivery services. Simply assign a smart credential to a guest. If a guest card is lost, simply block and assign a new one, and even receive a notification if someone tries to enter with a blocked smart card.

PIN CODE

TYPE IN A PIN DOOR CODE

With the new SALTO door code locks, there is no need to carry any credential or phone. Type in your PIN code and enjoy the convenience of unlocking your door using the smart lock keypad; or generate and assign a secure and unique PIN code for your guests to let themselves in — no matter where you are — and never worry about carrying or losing keys again.

REMOTE OPENING

OPEN DOORS FROM ANY DISTANCE

Let guests in more conveniently than ever. SALTO smart electronic locking solutions let you open doors from anywhere, anytime. Whether it's a visitor who arrived earlier than you or a new employee without a Tag, you can unlock doors for your guests via remote opening functionality from anywhere around the world.

A SMARTER WAY TO MANAGE YOUR HOLIDAY PARK ACCESS

Understand the SALTO smart access ecosystem.

Proven reliability and security bring the option of smart access control to every lodge type, providing vastly better functionality and performance than is possible with a traditional mechanical solution. SALTO smart access control is a flexible solution that requires no software installation, nor the cost of a fully-wired electronic product

SALTO Hospitality solutions are built for any Campings, Lodge Parks, or Bungalows that are looking to manage guest check-in in an easy and secure way. No matter your lodge type or the size of your property, we've got the smart access control solution that fits your needs.

SALTO is a simple, yet sophisticated, flexible cloud-based access control solution that fits the needs of your business today and tomorrow. The four parts of the SALTO KS - Keys as a Service - cloud-based access control solution are: Web & Mobile App, IQ, Electronic Lock & Smart Key.

MANAGEMENT SOFTWARE

EASILY GRANT SPECIFIC ACCESS

Have full control of all functions and features from the web app. And, while on the go, use the mobile app for keeping track of events, remote unlocking, and blocking.

IQ

THE CENTRAL HUB OF YOUR SITE

The SALTO KS IQ receives all changes and settings from the SALTO KS application and ensures that all locks are updated within seconds. The IQ serves as the brain of your site, connects your wireless locks to the cloud, and can be extended by adding additional repeaters if needed.

ELECTRONIC LOCK

WIRELESS & COMPATIBLE WITH YOUR DOOR

SALTO wireless locks can go on any door, however unusual the door may be. SALTO offers a broad range of hardware including electronic locks or cylinders for main entry doors and guest rooms and wall readers for all electric doors, including gates. These solutions make smart access to any door possible.

SMART KEY

MOBILE, PIN CODE, OR SMART TAG ACCESS

You can always use your smartphone or a PIN code to unlock doors, but as a third credential you can also use Tags. A Tag is a physical device (contactless key fob) that works based on RFID. With a built-in secured chip, an opening can be triggered by directly presenting the Tag to the lock.

MAKE SMART ELECTRONIC ACCESS CONTROL TO ANY DOOR POSSIBLE

SALTO state-of-the-art electronic locking solutions offer flexible and functional access control with a wide choice of custom options for any type of door and market standard.

SALTO delivers an easy-to-use electronic locking platform that integrates all your physical security needs through smart, wireless, and battery-operated smart locks, giving you all the latest user access information for virtually all of the doors in your facility.

SALTO offers a broad range of hardware, making smart access to any door possible.

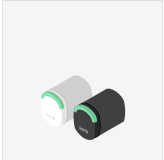
Designed to cover every access point type and with the latest technologies to protect against advanced attacks, SALTO's electronic locking platform technology leverages industry-leading security practices, including advanced encryption to provide users a secure and seamless keyless and mobile experience.

XS4

Electronic Locks

Smart, secure, innovative, and easy to install, the XS4 electronic escutcheon sets need no hard wiring and provide a totally wire-free networked electronic locking solution with a great range of features.

- All-in-one smart lock designed to blend into any type of door, any access point, and door retrofit.
- Battery-operated electronic smart lock simplifies installation in virtually any kind of door.
- Includes the latest electronic components – RFID (Mifare® DESFire and HID iClass® Seos™), Bluetooth, and NFC which ensures current and future compatibility.



NEO

Electronic Cylinders

The perfect electronic cylinder to fit any door.

- Easy to install and retrofit, the SALTO Neo universally compatible cylinder replaces your existing cylinder and fits any door with unlimited models options.
- Makes it easy and secure to incorporate smartphones – combined with physical keycards, fobs, or wearables – into your access control solution.
- With increased drill protection, encapsulated safely inside the tough SALTO Neo Cylinder exterior is the absolute latest in electronic lock technology for enhanced security. SALTO Neo Cylinder technology ensures current and future compatibility.

DESIGN XS

Wall Reader & Access Controllers

Incorporate the cutting-edge design standard of the SALTO product range in this technological powerhouse for online and real-time access control demands.

- A complete security solution, i.e. barriers, lifts, sliding doors, or electronic gates, where control must be boosted by online real-time access control.
- Reader is housed in a two-piece, weatherproof secure electronics potted enclosure.
- Extend SALTO access control benefits to all those doors where a stand-alone electronic escutcheon cannot be fitted (electric strikes, magnets, barriers, lifts, etc).

NEOXX

Electronic Padlocks

Built to withstand every application, tested and approved, the SALTO Neoxx is a padlock you can rely on when you're out in the field in any type of application.

- Special armoured cover case with double-layered structure guarantees the ultimate protection from falls, shocks, and the hardest environment or usage.
- Robust and durable, this electronic padlock features IP68 water resistance and dust protection for harsh environments and extreme climates.
- Fully compatible with the rest of the SALTO smart electronic hardware locking platform.

TECHNOLOGY

The SALTO Technology Partner program empowers best-in-class technology companies to link into SALTO's smart access control technology.

Our access control solutions are focused on simplicity and efficiency, removing complicated and expensive wiring and introducing wireless technology and mobile access with real long-term advantages for hoteliers.

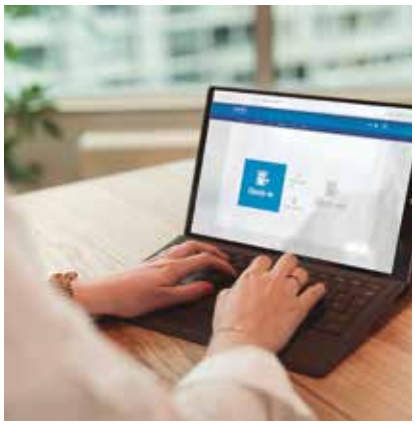
One aspect that differentiates SALTO's Hospitality access platform is the ability to combine and incorporate it with other room, building, and management systems, increasing efficiency at a managerial level and optimising security for your premises.

We deliver comprehensive solutions that unite access control, security, building automation, software, operations, and much more in an all-in-one integrated technology platform.

GUEST APPs

Valuable partnerships with reputable providers of Mobile App services for the hospitality industry. SALTO and our partners are driven by the opportunity for our hotel clients to provide a superior guest experience to their clients, whether by offering mobile functionalities or superior management standards.

- **DIRECT BOOKINGS**
- **CHECK-INS AND CHECK-OUTS**
- **GUEST LOYALTY PROGRAMS**
- **MOBILE ACCESS**



PMS

SALTO Hospitality solutions are compatible with most of the PMS software providers of the industry, making property management easier and more efficient.

- **FRONT DESK OPERATIONS**
- **ONLINE RESERVATIONS**
- **ACCOUNTS RECEIVABLE**
- **KEY ISSUING OR GUEST CHECK-IN**

CHECK-IN SOLUTIONS

Checking in and out of hotels will never be the same again! Significant innovations and progress mean guests can choose how and when they check-in or out, thanks to the support and expertise of SALTO Hospitality's key partners.

KIOSK CHECK-IN

PAYMENT SYSTEMS

TABLET CHECK-IN

MOBILE ACCESS / GUEST KEY ISSUING

RMS - ROOM MANAGEMENT SYSTEM

RMS is automated software and hardware applications that serve to control the various aspects of a guest's room. SALTO has created key partnerships in this field and incorporates the latest RMS technology with the most comprehensive wire-free access control system.

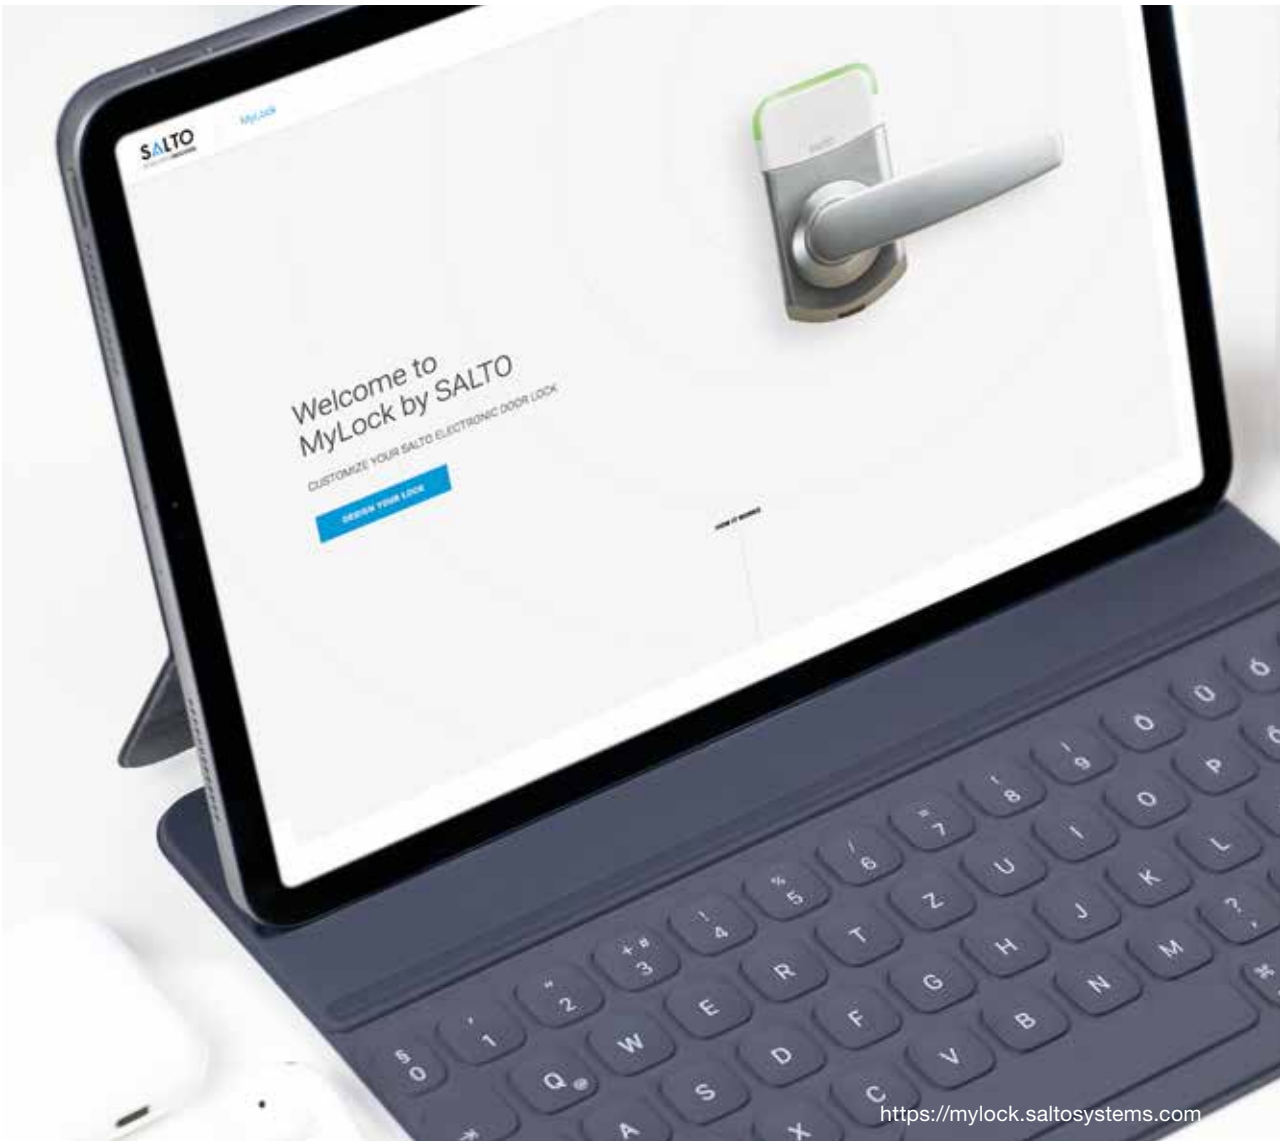
BUILD YOUR OWN DOOR

Customize your electronic smart door lock.

Select an electronic smart lock model and door type and customise your SALTO door lock with a range of colours, finishes, and handle options with the SALTO MyLock configurator.

The innovative MyLock tool allows for complete visualization and customization of the locking solutions chosen by the user. By accessing the webpage, the user is able to select the door lock model online to configure and create a customised door by personalising everything.

SALTO continues to innovate by launching a unique tool for the access control industry.



Choose your electronic smart lock model.

Choose your favorite electronic smart lock model (ANSI, Euro, or Scandinavian standards) to create your customised door and personalise everything.

Choose your door type and select a handle design.

Choose a door type, finish, handle design, and lockset finish that match your working space.

Download and save your settings.

Once the door configuration is complete, you can store and compare it against previously-configured door lock models or save it as a PDF.

Contact us.

Send us your selection, ask us a question, or just contact us for a demo.

Living with the all-in-one smart keyless experience.
